Discover Local Artists: Schorr and Selikoff

By Christine Davis | Arts and Culture, arts-and-culture | May 05, 2011

"Visions: Real & Imagined," featuring the work of artists Elle Schorr and Nathan Selikoff, opens at Palm Beach Gardens City Hall, Monday May 9.

This exhibition explores two different approaches to capturing and portraying the complex world surrounding us, juxtaposing the photographic images of real city life as seen by Schorr with imaginative and abstract computer generated imagery by Selikoff.

My photographs are reflections taken on city streets, and explore the intersections of past and present, old and new, shadow and light as captured by my camera in real time," Schorr said.

I seek out the cacophony of city life, looking for a fuller experience of the streets, the neighborhoods, the mood, the changes in lifestyles and eras in which the city was built.

At times, my images become mysterious, even magical. They are of real life, but often not realistic, nor literal." More of Schorr's work can be seen on her Web site.

Said Nathan Selikoff: "My explorations take place in the fuzzy overlap between art, mathematics and programming, transforming the non-visual reality of equations and systems into abstract imagery in the form of prints, animations, and installations.

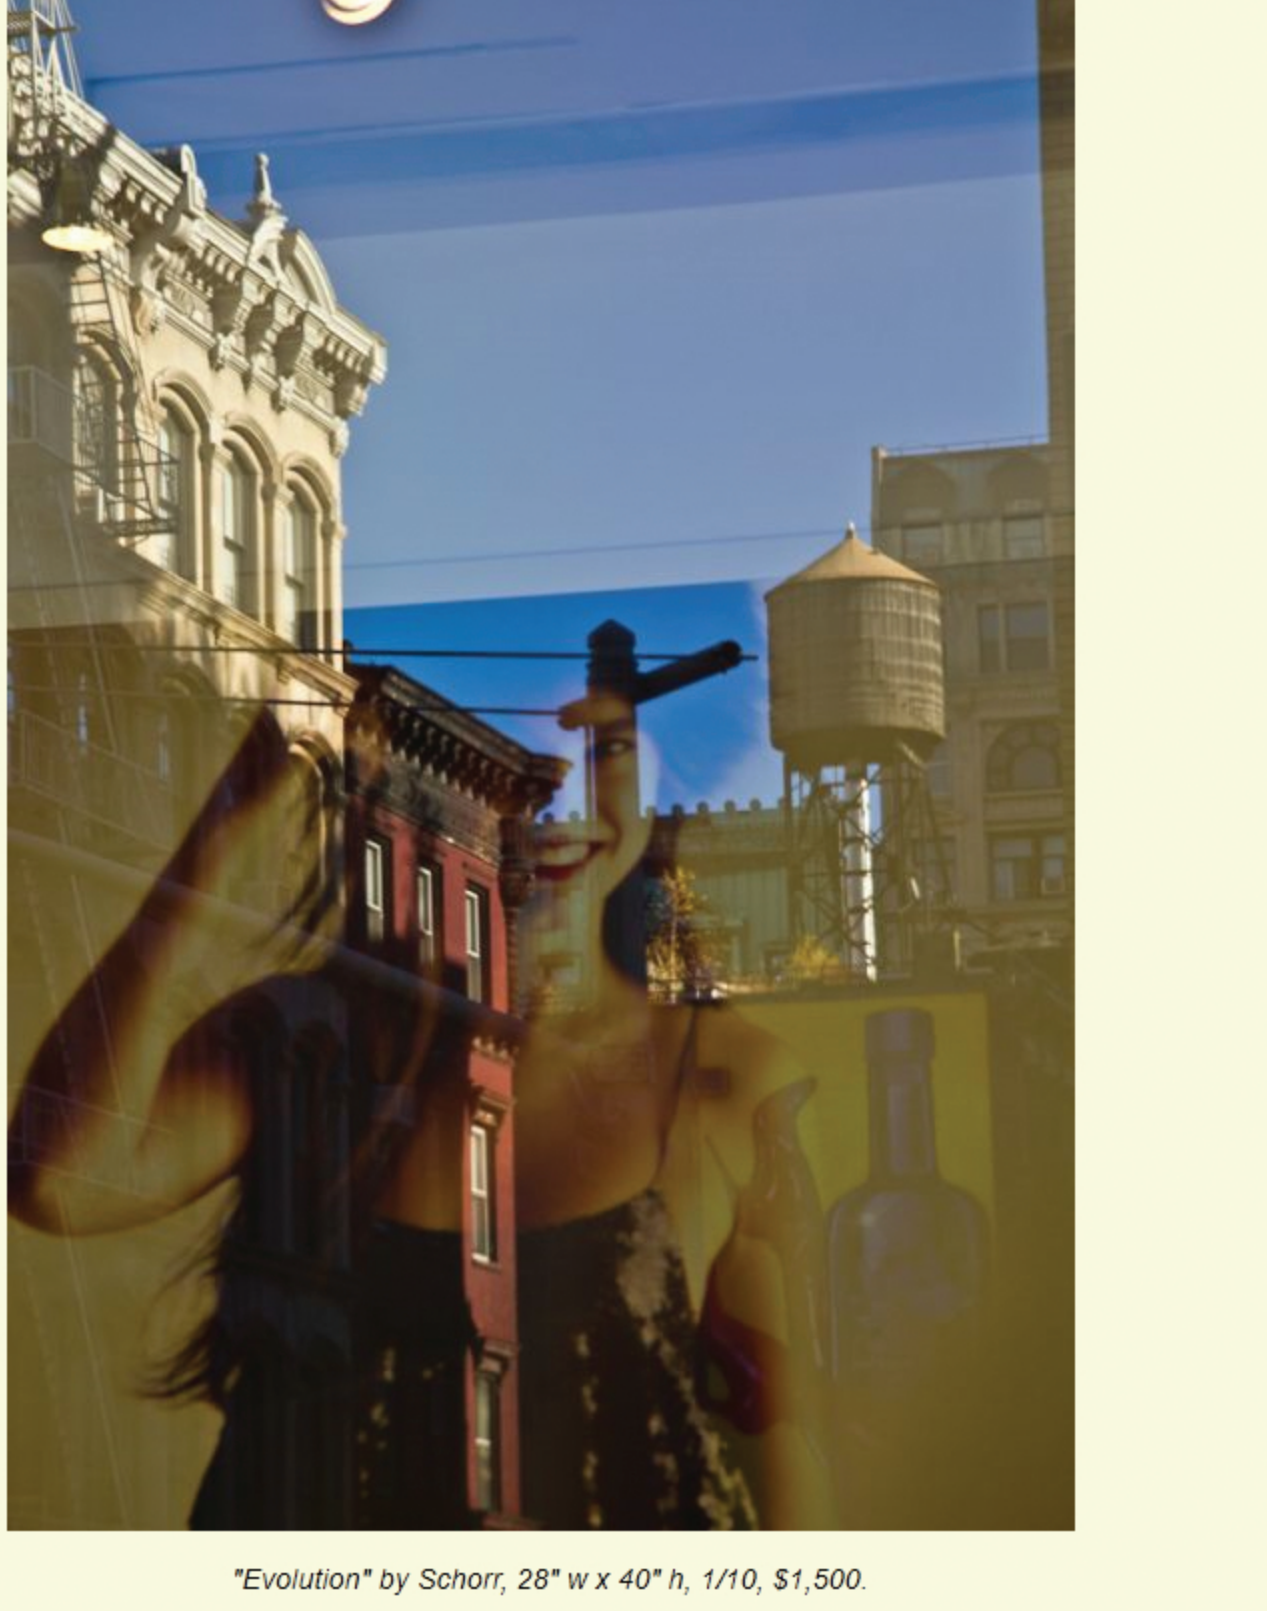

Using the computer as my primary artistic tool and pulling from such diverse areas as chaos and population simulation, I mix mathematics with traditional elements of design to create experimental cutting edge art." His work can be seen on his site.

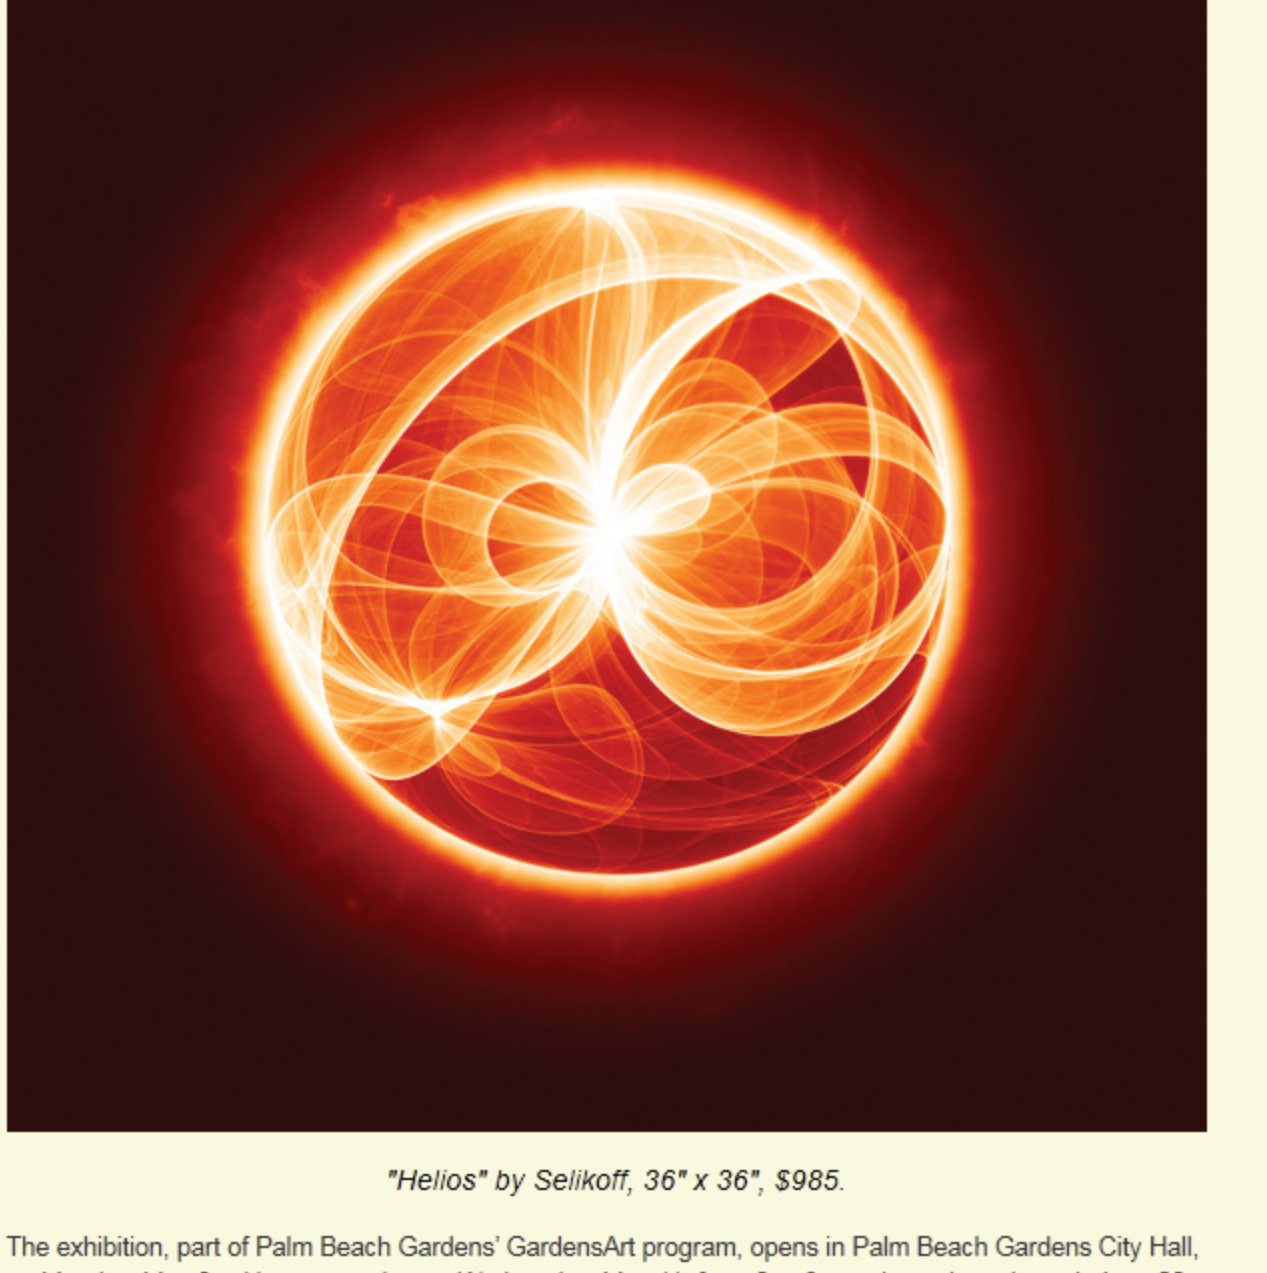

"Downtown Blues" by Schorr, 30" w x 22" h, 1/10, \$1,200.

"Death Mask 1" by Selikoff, 33" h x 23" w, \$315.

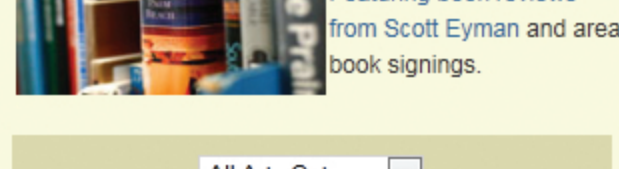

"Evolution" by Schorr, 28" w x 40" h, 1/10, \$1,500.

"Helios" by Selikoff, 36" x 36", \$985.

The exhibition, part of Palm Beach Gardens' GardensArt program, opens in Palm Beach Gardens City Hall, on Monday, May 9, with an reception on Wednesday, May 11, from 6 to 8 p.m. It continues through June 23.
